

PARETO Revenue Improvement

Improve performance through greater risk documentation and reporting accuracy.

Pareto's Revenue Improvement solutions combine industry expertise, proprietary algorithms, advanced data science, and a cutting-edge technology platform to identify, prioritize and resolve gaps in undocumented and unreported risk.

Leverage Pareto’s analytics to enhance your revenue management program.

Achieving complete and accurate risk scores requires you to address both undocumented and unreported risk.

CAPTURING UNDOCUMENTED RISK

Rethinking strategies to close risk documentation gaps in the most effective, cost efficient method possible.

- 1 **Advanced Analytics**
using proprietary data science
 - 2 **Tailored Provider Reporting**
integrated with risk, quality and clinical initiatives
 - 3 **Delivering Actionable Insights**
through in-workflow provider connectivity
 - 4 **Performance Evaluation**
at the member, provider (practice/ system), and condition level
-  **Managed Services**
for program design, performance evaluation, and program execution

RESOLVING UNREPORTED RISK

Flexible and comprehensive solution to evaluate end-to-end data integrity and identify points of failure for correction.

- 1 **Diagnostic Assessment**
of data quality exposure
 - 2 **Exposure Quantification**
through assessment of critical data elements to determine financial improvement opportunity.
 - 3 **Prioritization of Efforts**
based on areas with greatest risk
 - 4 **Root Cause Identification**
to resolve data integrity issues at the source
-  **Ongoing Control Monitoring**
to proactively identify future data quality challenges

Why Pareto Intelligence

Transparent

Not a “black box” solution, providing detailed support into every insight delivered.

Flexible

Custom outputs and reporting to align with your operational needs.

Proactive

Focused on providing actionable insights to resolve gaps today and prevent future issues.
